SIDE MOUNT FIBREGLASS SAND FILTERS

Features:

1. UV inhibited filament wound structural fiberglass tanks
2. Automatic air bleed with manual safety pressure release
3. Large clear lock ring sealed lid for easy interior viewing and media installation/removal
4. Large combination sand/water drain for easy winterising
5. Six way multiport valve
6. Sight glass for inspection of filtered water
7. 360° radial lateral under drain system for superior hydraulics
8. Superior glycerine filled pressure gauge

Functions:

Maximum working pressure 250kPa / 36psi / 2.5bar
Factory testing pressure 400kPa / 58psi / 4.0bar
Maximum temperature 50 deg c / 122 deg f
Size of gravel 5mm to 8mm
Size of silica sand 0.5mm to 0.8mm

These functions apply to both Side and Top Mount Sand Filters

TOP MOUNT FIBREGLASS SAND FILTERS

Features:

1. UV inhibited filament wound structural fiberglass tanks
2. Manual safety pressure release
3. Bolt style multiport for positive multiport to tank seal
4. Top mount 6 position multiport included union pressure gauge
5. Sight glass for inspection of filtered water
6. Superior glycerine filled pressure gauge
